

# Constructing the Project with Teacher as our Guide

Step 1

What problem are we trying to solve together?

What tools will we need to solve it? 🗺️ 📎

What do we already know about the problem we are trying to solve?

How can our current knowledge help us to solve the problem?

What sources can we use to help solve the problem?

What new ideas do we have as a result of our investigation?

What new questions do we have as a result of this new knowledge?

\*Teacher helps students make connections to the "big idea" by prompting, scaffolding and guiding towards the discovery of new and useful ideas

Step 2

Step 3

Step 5

Step 4
